

3WMH7565 NIGHT COVER INSTALLATION GUIDE 30E & 35E OPEN DISPLAY

READ THIS PAGE FIRST

1. **Howard-McCray would like to thank you for purchasing one of our units.**
PLEASE READ THIS MANUAL CAREFULLY BEFORE PROCEEDING WITH THE INSTALLATION OR OPERATING OF THIS UNIT.
2. **Environment** - These display cabinets are made to operate at 75°F and 55% relative humidity. Temperature and/or humidity greater than the factory recommendations will hinder the performance of this cabinet.
3. **Cabinet Set-Up** – A qualified refrigeration mechanic should set-up this cabinet. Control settings are extremely critical to the proper operation of this unit. These settings are the responsibility of the customer and are not covered by factory warranties. Failure to have this unit installed by a qualified refrigeration mechanic may VOID all the warranties on this unit.
4. **Proper Loading** – Only pre-cooled foods should be placed in this unit.
5. **Location** – Because of the open area, this cabinet must not be located in the direct rays of the sun, near radiant heat sources, or in an area where it will be subjected to drafts or air disturbances of any type.
6. **Never spray water into the cabinet.** This will cause damage to the seals and cause the evaporator drain system to overflow.
7. **If additional assistance is required, please call us at 1-800-344-8222.**

3WMH7565 NIGHT COVER

INSTALLATION GUIDE FOR 30E OPEN DISPLAY CASES

Placement of Night Cover

You will want to place the Night Cover up against the Front Canopy on the top of the case.

(Do not set Night Cover on top of the Canopy part.)

Make sure that Night Cover is centered on the case Left-to-Right.
